PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(Royal Netherlands Society of Agricultural Science)

Managing Editor: G. H. Arnold, Institute for Soil Fertility, Haren (Gr.), Netherlands.

Assistant Editors:: J. K. Smit, Epe, and A. Houwers, Wageningen.

Druk: Koninklijke Drukkerij Van de Garde B.V., Zaltbommel

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

CONTENTS—TABLE DES MATIERES—INHALT

PAGE

N. ALBASEL, J. NAVROT and U. KAFKAFI, *Short communication.* Effect of nitrogen source on tomato growth on a desert on a desert soil containing 95% carbonates: A greenhouse study 537

A. S. AWAD and D. G. EDWARDS, Reversal of adverse effects of heavy ammonium sulphate application on growth and nutrient status of a kikuyu pasture. 169

FOUAD M. BASIOUNY, W. T. HALLER and L. A. GARRARD, Evidence for root Fe nutrition in *Hydrilla verticillata* Royle 621

P. H. T. BECKETT, R. D. DAVIS, A. F. MILWARD and P. BRINDLEY, A comparison of the effect on different sewage sludges on young barley 129

E. H. R. VAN DEN BERG, The effectiveness of the symbiosis of *Rhizobium leguminosarum* on pea and broad bean 629

ROBERT BOGGIE, Water-table depth and oxygen content of deep peat in relation to root growth of *Pinus contorta.* . . 447

U. G. BOKHARI, Regrowth of western wheatgrass utilizing ^{14}C-labeled assimilates stored in below-ground parts 115

R. R. BROOKS, *Short communication.* Copper and cobalt uptake by *Haumaniastrum* species 541

J. C. BROWN and R. B. CLARK, Copper as essential to wheat reproduction 509

RAY W. BROWN and WALTER T. MCDONOUGH, Thermocouple psychrometer for *in situ* leaf water potential determinations 5

OLDŘICH CHLOUPEK, Evaluation of the size of a plant's root system using its electrical capacitance 525

I. P. CUMBUS, D. J. HORNSEY and L. W. ROBINSON, The in-

fluence of phosphorus, zinc and manganese on absorption and translocation of iron in watercress 651

DAVID A. DALTON and DONALD B. ZOBEL, Ecological aspects of nitrogen fixation by *Purshia tridentata* 57

W. S. DANCER, J. F. HANDLEY and A. D. BRADSHAW, Nitrogen accumulation in kaolin mining wastes in Cornwall I. Natural communities. 153

W. S. DANCER, J. F. HANDLEY and A. D. BRADSHAW, Nitrogen accumulation in kaolin mining wastes in Cornwall II. Forage legumes. 303

F. VAN EGMOND and M. AKTAS, Iron-nutritional aspects of the ionic balance of plants 685

JOSEPH L. FAIL Jr. and ZACHARY S. WOCHOK, Soybean growth on fly ash-amended strip mine spoils 473

R. F. FOLLETT, J. F. POWER, D. L. GRUNES and C. A. KLEIN, Effect of N, K, and P fertilization, N source, and clipping on potential tetany hazard of bromegrass 485

S. FUJIHARA, K. YAMAMOTO and M. YAMAGUCHI, A possible role of allantoin and the influence of nodulation on its production in soybean plants. 233

K. L. GILES and H. C. M. WHITEHEAD, Reassociation of a modified mycorrhiza with the host plant roots (*Pinus radiata*) and the transfer of acetylene reduction activity . 143

P. M. GIORDANO, Efficiency of zinc fertilization for flooded rice 673

D. R. GOSSETT, D. B. EGLI and J. E. LEGGETT, The influence of calcium deficiency on the translocation of photosynthetically fixed ^{14}C in soybeans. 243

S. C. GOSWANI, K. L. GULATI and K. K. NAGPAUL, Estimation of uranium and boron contents in plants and soils by nuclear particle etch technique 709

D. A. HALL, Some effects of varied calcium nutrition on the growth and composition of tomato plants 199

D. A. Hall and N. G. Starkey, *Short communication.* A system for studying the effect of nutrient solution temperature on plant growth 533

M. M. D. Heikal, Physiological studies on salinity VI. Changes in water content and mineral composition of some plants over a range of salinity stresses 223

Rudolf Häsler und Hans Wanner, Gesättigte Fettsäuren in Böden von Kaffeepflanzungen. 397

Tran Dang Hong, F. R. Minchin and R. J. Summerfield, Recovery of nodulated cowpea plants (*Vigna unguiculata* (L.) Walp.) from waterlogging during vegetative growth. . 661

D. Hornby and Margaret E. Brown, Nitrate and ammonium in the rhizosphere of wheat crops and concurrent observations of take-all. 455

P. D. Humphries and V. G. Devonald, The distribution of potassium, calcium and magnesium in young tomato plants grown in water culture 435

W. L. Kretovich, V. I. Romanov, L. A. Yushkova, V. I. Shramko and N. G. Fedulova, Nitrogen fixation and poly-β-hydroxybutyric acid content in bacteroids of *Rhizobium lupini* and *Rhizobium leguminosarum* 291

B. K. Kulkarni and N. K. Savant, Effect of soil compaction on root-cation exchange capacity of crop plants 269

Pauline Y. Ladiges, Differential susceptibility of two populations of *Eucalyptus viminalis* Labill. to iron chlorosis. . 581

Kuk-Ki Lee, Teresita Castro and Tomio Yoshida, Nitrogen fixation throughout growth, and varietal differences in fixation by the rhizosphere of rice planted in pots 613

C. Edmund Marshall, In memoriam William A. Albrecht 1

H. G. Miller and J. D. Miller, Growth of Scots pine under nutritional and climate stress 103

S. G. Misra and R. S. Dwidevi, *Short communication.* Resid-

ual effect of iron-nickel interactions on the availability of nutrients 705

F. R. Moormann, W. J. Veldkamp and J. C. Ballaux, The growth of rice on a toposequence – A methodology 565

S. Nagarajah and G. B. Ratnasooriya, Studies with anti-transpirants on tea (*Camellia sinensis* L.) 185

E. I. Newman, Microbial abundance in the rhizosphere: A computer model 17

Gonzalo Pérez Melián, Angel Luque Escalona and Abram A. Steiner, Leaf analysis as a diagnosis of nutritional deficiency or excess in the soilless culture of lettuce. 259

Rajendra Prasad and R. N. S. Reddy, Effects of sulpha drugs on nitrification of urea in soil 11

G. H. Rashid, The volatilisation losses of nitrogen from added urea in some soils of Bangladesh. 549

Antoni J. Rayar and Tang Van Hai, Effect of ammonium on uptake of phosphorus, potassium, calcium and magnesium by intact soybean plants 81

John Roberts and D. F. Fourt, *Short communication.* A small pressure chamber for use with plant leaves of small size 545

J. D. Russell and H. A. Anderson, *Short communication.* Comment on 'Spectroscopie infra-rouge de quelques fractions d'acides humiques obtenues sur Sephadex 547

M. Saeed, Phosphate fertilization reduces zinc adsorption by calcareous soils 641

S. Saeed Bhatti and G. Sarwan, *Short communication.* Response of corn to micro-nutrients (Zn and Cu) on a saline soil I. Growth and ionic relationships. 719

N. M. Safaya and Bharat Singh, Differential susceptibility of two varieties of cowpea (*Vigna unguiculata* (L) Walp.) to phosphorus-induced zinc deficiency. 279

R. B. Sharma and G. P. Verma, Characterization of skrinkage cracks in medium black clay soil of Madhya Pradesh I. Pattern and size of cracking in relation to vegetative covers . 323

B. R. Singh and S. N. Taneja, Effects of gypsum on mineral nitrogen status in alkaline soils 315

M. K. Sinha, K. S. Dhillon and S. K. Dhillon, Labile pool and selective distribution of zinc in soils I. Comparison of laboratory and greenhouse measurements of labile zinc in alkaline soils 369

M. K. Sinha and B. Prasad, Effect of chelating agents on the kinetics of diffusion of zinc to a simulated root system and its uptake by wheat 599

J. Spálený, Sulphate transformation to hydrogen sulphide in spruce seedlings 557

K. H. Tan, High and low molecular weight fractions of humic and fulvic acids 89

M. Wainwright and C. G. Kowalenko, *Short communication*. Effects of pesticides, lime and other amendments on soil ethylene 253

M. Wainwright and F. J. Sowden, Influence of fungicide treatment on $CaCl_2$-extractable phosphorus and phosphate-solubilizing micro-organisms in soil. 335

Thomas E. Weaks, Differences between strains of rhizobium in sensitivity to canavanine 387

H. J. Wiebe, H. P. Schätzler and W. Kühn, On the movement and distribution of calcium in white cabbage in dependence of the water status 409

L. R. Willett and T. Batey, The effects of metal ions on the root surface phosphatase activity of grasses differing in tolerance to serpentine soil 213

Bruce W. Wood, Robert F. Wittwer and Stanley B. Carpenter, Nutrient element accumulation and distribu-

tion in an intensively cultured American sycamore plantation 417

P. E. Zanstra and F. Hagenzieker, Comments on the psychrometric determination of leaf water potentials *in situ*. . 347
